If education standards are not fully met at the time of the application for any instructional staff, no points would be awarded for that instructional staff. For new sites that may not have fully qualified staff during the selection process, the sub-committee may consider adding an indicator(s) under the final section "Additional Locally Determined Indicators," and award corresponding points up to 8.

**\*\*To average, add all points together from lines 1-10 and then divide by the number of items listed (1-10)**
